

GROUP 6

GERALD B | HARRIF G |

BOBURMIRZO K | ENOMBE. E

# Room Service On Demand

# Business Goals

Create simple way for university student to  
order for cleaning services with  
ease and when needed.

THE INTERVIEW WERE SIMPLE  
ENOUGH TO UNDERSTAND

THERE WERE CONFLICTS IN  
THEIR INTERVIEWS

THEY TRIED TO CLARIFY  
AMBIGUITIES E.G TYPE OF  
BROWSER IOS

## **Quality of the interview**

.....

# Quality of the use cases.

.....

SOME OF THE USE CASES  
LACKED REQUIRED ELEMENTS

Such as Alternate Flow of Exceptions,  
Precondition, Assumptions

# MVP

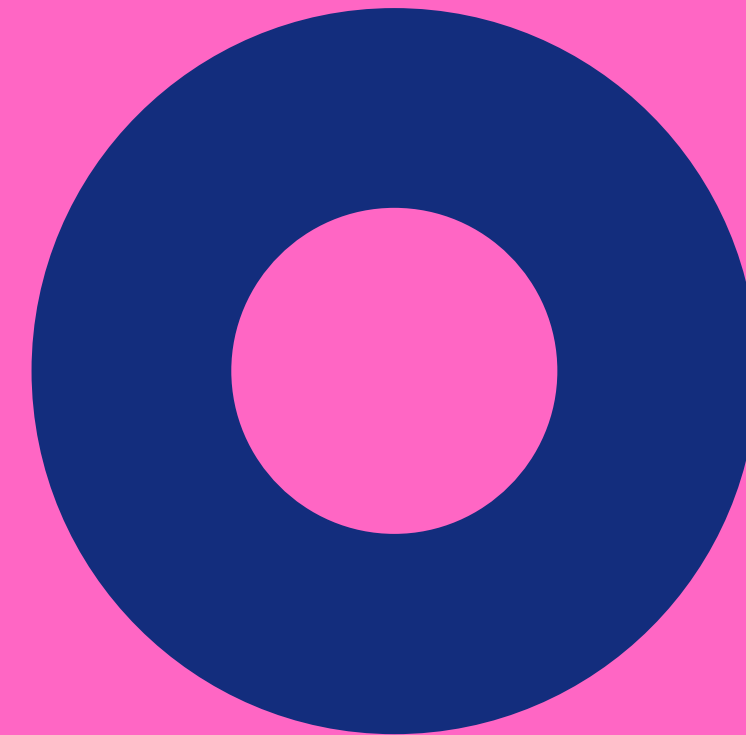

Lack of instruction like on setting up  
database.

Lack of CRUD operations.

MVP included major aspect of the  
usecases which still needed  
modifications.

The user interface is responsive but still has some bugs in mobile view.

# User Interfaces

# Unit Testing

.....

# Acceptance Testing

.....

# TEAMWORK

We shared the tasks among ourselves by dividing the task into front-end and backend. Documentation for use-case for changes was done by one team member. After each task we reconviended to review each one task before comiting to GitHub.

# COMMUNICATION

The other team proved effective by providing us with the necesary information which we required to complete the application.

# Lessons learned

.....

## DEFICULTY WITH THE CODE

Understaning other people's code can be a major challenge especially without proper documentation.

## TECHNOLOGY

Working with new technologies can take considerable time before getting used to it.

# THINGS THAT COULD'VE BEEN DONE DIFFERENTLY

.....

PROPER DOCUMENTATION

CHOOSE A DIFFERENT  
TECHNOLOGY

PROVIDE A MORE APPEALING  
USER INTERFACE

SEND SMS NOTIFICATION TO  
ADMIN WHEN THEY ARE  
OFFLINE.

# STRENGTH

SUPPORT MAJOR LANGUAGES  
SPOKEN AT INNOPOLIS.

RESPONSIVE FOR MOBILE  
DEVICES.

# WEAKNESS

PROPER DOCUMENTATION

WRITTEN IN JAVA AND  
MAKES IT DIFFICULT TO  
DEPLOY.

LACK OF BASIC  
FUNCTIONALITIES. E.G  
USERMANAGEMENT
